Share with everyone to inspire
Who We Are

SWETI YETI LAUNCH CLUB was founded by a small group of community participants who came together through NFT organizations just like ours!

Our goals are clear and tangible, with full transparency. With passions for gaming, mining and the sharing of opportunities; we strive to create a sustainable community development.
Our biggest goal is to achieve a position from which we can support entrepreneurial individuals and their dreams by providing the platform to make it possible.

We want to lower the barrier of entry by offering a Project-Incubator.

This includes everything from building and deploying smart contracts, to creating exposure through verified ad-space within our games. Essentially creating a one-stop-shop for artists, content creators and project visionaries alike.
This is one of the biggest and most exciting parts of this project! We are very invested in this community and sharing creative ideas for others to appreciate.

Do you have an idea you’d love to explore and build out but not sure how to implement it? We can aid with every step from finding community artists, to coders and all aspects in between.

We aim to build a community where we inspire and motivate each other to greater heights. The meta verse and other communities will benefit from guidance, integrity networking and aiding in better business practices.

The future is paved by the quality work put forth today and we plan to build a brighter future for the generation of tomorrow.
Yeti Mining

It all started with the Hold-To-Hash system; this is the foundation of our operation.

Hold-To-Hash refers to the pooling and distribution of tokens generated by the Sweti Yeti mining facility.

With the construction of a physical facility comes a level of establishment unseen by many in the NFT space. This is an introduction we are very proud of, and extremely excited to develop!
Everyone loves video games! This statement has never rung truer than today. We dare to step into the highly competitive industry of game development, and yes, we do see a future in Play-To-Earn!

Although we would love nothing more than to make an entrance in blockchain gaming with our first product, we have elected to provide a more mainstream appeal for now as we enter the gaming market. With simpler arcade style games, we can cater to a more diverse audience without the marketing limitations of blockchain specific titles.

This will give us ample space to build a proper foundation of developers whom we can rely on for our many projects to come.
Sweti Charity

Our team comes from all walks of life, a range of backgrounds all having endured our own hardships throughout our journeys. We dream of being able to provide for those who are still struggling, to help youth of all demographics and impart to them the support needed for success on their paths.

We are continuously building relationships with these organizations and seeking new opportunities. Speaking with leaders, coordinators and previous donors to ensure that our efforts are delivered in full and with the greatest affects possible.

With this ambition, we will be selecting 3 causes to donate to. As well as some very personal donations being organized by our founders.
VIP Mint Pass

This initial offering will act as a Mint Pass for future drops. This will also provide early access to drops before the general public.

Verified holders will have access to an exclusive Discord, where you can be the first to know about upcoming drops.
Q1 • Pre-Pre-Sale, Pre-Sale, and Public Sale.

| What chain will you be launching on?                                    | • ETH Main Net (ERC-721)                                                                                                                                 |
| How to Whitelist?                                                       | • Participate in our Discord server, be kind and help others!  
• Pre-pre = 0.08ETH  
• Pre-Sale = 0.1ETH  
• Public Sale = 0.12ETH                                                                 |
| What is the price?                                                      | • Pre-pre = 0.08ETH  
• Pre-Sale = 0.1ETH  
• Public Sale = 0.12ETH                                                                 |
Sweti Yeti Facility - The Sweti Yeti mining facility will be our home base within the ecosystem. Located in Canada, this operation aims to provide a more grounded approach to NFT utilities.

Hold-to-Hash - Hold-to-Hash refers to the sharing of the hashrate produced by our mining facility. This will be the most directly profitable feature for holders.

Share With Everyone To Inspire - This is a statement we as founders use to remind ourselves of our true mission. To share with, help and inspire the generations of youth to come. We aim to build a strong foundation around youth-based charity and services for mental health as each member on our team feels strongly about the impact.

Project incubator (launcher) - Our Project Incubator branch will allow any entrepreneurial individuals to launch projects of their own.
